

Quick Reference — Payroll Vouchers (Krio)

Di centralized voucher workflow en every anti-fraud rail.

Di stage dem

- Draft → Wait supervisor → Submitted → Under review → Approved → Payment authorized.
- Return-for-correction possible na any stage before payment (reason must be 10 character or more).

Who de do wetin

- Branch officer/supervisor de create + submit · supervisor de approve · finance officer de review + approve · MoF/admin de authorize payment.

Di rail dem

- One voucher per branch per period — duplicate de reject.
- Double-pay guard: one workman no able de na two active voucher for one period.
- E de immutable after submission — correction na only through official return (revision de go up).
- Creator no ever able approve in own voucher; authorizer no be creator EN no be approver.
- Payment-authorized voucher na permanent record; na only draft yu able delete.

Auto-generation

- Generate-from-run de split one payroll run into one draft voucher per branch; workman den wey no get branch de report.
